

## INDEX

- Acute disseminated encephalomyelitis, prognosis in, with a note on neuro-myelitis optica, 347.
- Aminoacid metabolism, disturbances of, following liver injury, 483.
- Anaemia of adult scurvy, 309.
- haemolytic, atypical congenital, 79.
- Anaesthesia, general, effects of, and hexamethonium, on the blood-sugar in non-diabetic and diabetic surgical patients, 405.
- Atypical congenital haemolytic anaemia, 79.
- Beri-beri, cardiovascular, hyperpiesis in, 195; pearl-diving, 196.
- Biochemical and pathological studies of congenital porphyria, 285.
- Blood-sugar in non-diabetic and diabetic surgical patients, effects of general anaesthesia, and hexamethonium on, 405.
- Bronchiectasis and bronchostenosis following primary tuberculosis in infancy and childhood, 295; clinical features, 300.
- Bronchitis, chronic, factor of infection in, 121; normal flora of the respiratory tract, 121; bacteriological findings in, 123; significance of the bacteriological results, 128.
- Bronchostenosis, bronchiectasis and, following primary tuberculosis in infancy and childhood, 295; clinical features, 300.
- Brucellosis, chronic, 23.
- Cardiovascular beri-beri, hyperpiesis in, 195; pearl-diving, 196.
- Causes of post-prandial attacks of palpitation and weakness after gastric operation, 381.
- Cholecystography, 261; technique, 263; interpretation, 269; and gall-bladder function, 269; significance of results of, in terms of gall-bladder disease, 271; cholecystographic findings in various diseases of liver and gall-bladder, 277.
- Chronic bronchitis, factor of infection in, 121; normal flora of the respiratory tract, 121; bacteriological findings in, 123; significance of the bacteriological results, 128.
- brucellosis, 23.
- Congenital porphyria, biochemical and pathological studies of, 285.
- Diabetic surgical patients, effects of general anaesthesia, and hexamethonium on the blood-sugar in non-diabetic and, 405.
- Diet, effect of, and regular living conditions on the natural history of peptic ulcer, 439.
- Disturbances of aminoacid metabolism following liver injury, 483.
- Effect of diet and regular living conditions on the natural history of peptic ulcer, 439.
- Effects of general anaesthesia, and hexamethonium, on the blood-sugar in non-diabetic and diabetic surgical patients, 405.
- Encephalitis, inclusion, and its relation to subacute sclerosing leucoencephalitis, 157; the electroencephalogram, 189; pathology, 190; aetiology, 193.
- Encephalomyelitis, acute disseminated, prognosis in, with a note on neuro-myelitis optica, 347.
- Factor of infection in chronic bronchitis, 121; normal flora of the respiratory tract, 121; bacteriological findings in, 123; significance of the bacteriological results, 128.
- Fanconi syndrome, innate functional defects of the renal tubules, with particular reference to, 133; acid-base regulation, 144; acid-feeding response, 145; the group of innate tubular deficiencies, 147; genetic considerations, 151.
- Fits in hypoparathyroidism, papilloedema and, 243; treatment, 256.
- Gall-bladder, cholecystographic findings in various diseases of, 277.
- disease, significance of results of cholecystography in terms of, 271.
- function, cholecystography and, 269.
- Gastric operation, causes of post-prandial attacks and weakness after, 381.
- operations, haematological and nutritional effects of, 419; nutritional survey, 432.

- Gout, studies in, with particular reference to the value of sodium salicylate in treatment, 331.
- Haematological and nutritional effects of gastric operations, 419; nutritional survey, 432.
- Haemolytic anaemia, atypical congenital, 79.
- Heart in chronic pulmonary disease, 43.
- Hexamethonium, effects of general anaesthesia and, on the blood-sugar in non-diabetic and diabetic surgical patients, 405.
- Hyperpiesis in cardiovascular beri-beri, 195; pearl-diving, 196.
- Hypertension in pyelonephritis, nephrectomy and other treatment for, 1.
- Hypoparathyroidism, papilloedema and fits in, 243; treatment, 256.
- Idiopathic steatorrhoea, symptoms, signs, and diagnostic features of, 59; symptoms and diagnostic features, 59; diagnostic criteria and conclusions, 72.
- Inclusion encephalitis and its relation to subacute sclerosing leucoencephalitis, 157; the electroencephalogram, 189; pathology, 190; aetiology, 192.
- Innate functional defects of the renal tubules, with particular reference to the Fanconi syndrome, 133; acid-base regulation, 144; acid-feeding response, 145; the group of innate tubular deficiencies, 147; genetic considerations, 151.
- Leucoencephalitis, subacute sclerosing, inclusion encephalitis and its relation to, 157; the electroencephalogram, 189; pathology, 190; aetiology, 192.
- Liver, cholecystographic findings in various diseases of, 277.
- injury, disturbances of aminoacid metabolism following, 483.
- Lupus erythematosus, systemic, 457; signs and symptoms, 459; clinical pathology, 463; morbid anatomy, 469.
- Metabolism, aminoacid, disturbances of, following liver injury, 483.
- Nephrectomy and other treatment for hypertension in pyelonephritis, 1.
- Nephritis, radiation, 215; acute, 216; chronic, 221; benign hypertension, 222; malignant hypertension from X-radiation, 222; cardiac enlargement, 224; pathology, 225; case reports, 230.
- Neuromyelitis optica, prognosis in acute disseminated encephalomyelitis, with a note on, 347.
- Nutritional effects, haematological and, of gastric operations, 419.
- Palpitation, causes of post-prandial attacks of, and weakness after gastric operation, 381.
- Papilloedema and fits in hypoparathyroidism, 243; treatment, 256.
- Peptic ulcer, natural history of, effect of diet and regular living conditions on, 439.
- Porphyria, congenital, biochemical and pathological studies of, 285.
- Proceedings of the Association of Physicians of Great Britain and Ireland, 1953: Forty-seventh Annual General Meeting, 507.
- Prognosis in acute disseminated encephalomyelitis, with a note on neuromyelitis optica, 347.
- Pulmonary disease, chronic, heart in, 43.
- Pyelonephritis, hypertension in, nephrectomy and other treatment for, 1.
- Radiation nephritis, 215; acute, 216; chronic, 221; benign hypertension, 222; malignant hypertension from X-radiation, 222; cardiac enlargement, 224; pathology, 225; case reports, 230.
- Radioiodine, urinary excretion of, as a clinical test of thyroid function, 99; derivation of indices of thyroid uptake from the urinary excretion of, 100; method of test, 103; results, 104.
- Renal tubules, innate functional defects of the, with particular reference to the Fanconi syndrome, 133; acid-base regulation, 144; acid-feeding response, 145; the group of innate tubular deficiencies, 147; genetic considerations, 151.
- Scurvy, adult, anaemia of, 309.
- Sodium salicylate, value of, studies in gout, with particular reference to, in treatment, 331.
- Steatorrhoea, idiopathic, symptoms, signs, and diagnostic features of,

- 59; symptoms and diagnostic features, 59; diagnostic criteria and conclusions, 72.
- Studies in gout, with particular reference to the value of sodium salicylate in treatment, 331.
- Symptoms, signs, and diagnostic features of idiopathic steatorrhoea, 59; diagnostic criteria and conclusions, 72.
- Systemic lupus erythematosus, 457; signs and symptoms, 459; clinical pathology, 463; morbid anatomy, 469.
- Thyroid function, urinary excretion of radioiodine as a clinical test of, 99; derivation of indices of thyroid uptake from the urinary excretion of 100; method of test, 103; results, 104.
- Tuberculosis, primary, bronchiectasis and bronchostenosis following, in infancy and childhood, 295; clinical features, 300.
- Urinary excretion of radioiodine as a clinical test of thyroid function, 99; derivation of indices of thyroid uptake from the urinary excretion of, 100; method of test, 103; results, 104.
